1

Choose your
Game

“Do you know the game [xxx]? Please explain it to me.”

2

Choose your
Theme

“I am a lecturer at university where I teach about [yyy]. Can you incorporate [yyy] into [xxx] so that I can use this game to teach my students about [A] and [B]? Focus on ...

3

Create your
Board

“This is exciting! Can you please create a written prompt that I can give to another image generating AI, that creates a gameboard based on that of [xxx] but that fits this new game?”

- www.deepai.org
- labs.openai.com
- MidJourney
- Etc.

4

Create your
Cards

“Excellent. Now provide in tabular format an alphabetical list of 20 cards in this new game. Provide names and specific functions. I want to be able to print this list for my students.”

5

Adapt the Rules

“Please provide the rules of the game, followed by a step-by-step turn order.”

“The learning objectives of the game should be [C] and [D]. The number of players should be [2-4]. The game should take no longer than [60 minutes]. Please incorporate this into the game and rewrite the rules and turn order accordingly.”

6

Name your
Game
& Hand In

“Name my game!
Give 5
suggestions.”
